

EGD/ERCP PREP – EIRMC/MVH

**Paul Hendrix, MD Clint Behrend, MD Todd Williams, MD
Ned Warner, DO Larry Evans, DO**

Name: _____

Procedure: _____

Check-in time: _____

A nurse will call you the day before.

Nothing to eat or drink for six hours before the procedure. If you are on any heart, blood pressure, or seizure medications, take your medications with a small sip of water the morning of your procedure.

General Information:

- Please report to the front desk in the lobby of the hospital. Tell them you are there for a Day Surgery procedure.
- The nurse will admit you and place an IV in order to make you comfortable during the procedure. Please inform the nursing staff of any allergies you may have to medications.
- Following your procedure you will remain in the Day Surgery department for 2-6 hours to allow the sedation to wear off under the observation of the nurses. Your doctor will visit with you after the sedatives have worn off to explain the findings of your procedure.
- **Someone will need to drive you home from the hospital.** Due to the lingering effects of the medications we advise you not operate machinery, drive, sign any important documents or make any financial decisions for at least 24 hours after the procedure.

If you have any questions, please call 522-4000 and use the following extensions to reach the doctors nurse,
